

BINIYAM TAFESSE

Web Developer

+251 932460451 biniyamtafesse228@gmail.com [linkden](#) Ethiopia, Addis Ababa

ABOUT ME

Dynamic Software Engineer with extensive experience in developing and maintaining scalable web applications using modern technologies. Proficient in both backend and frontend development, with frameworks such as React and Express.js. Expertise in implementing RESTful APIs and creating intuitive user interfaces with Flutter, ensuring optimal performance and user satisfaction. Dedicated to delivering high-quality solutions through effective communication. Committed to continuous learning and professional growth within the software engineering field.

EDUCATION

July 2021 – June 2025

Adama Science and Technology University

Bachelors of Science in Software Engineering

Studied software engineering at Adama Science and Technology University, gaining foundational knowledge and skills in the field.

Feb, 2024-Mar, 2024

**UNIVERSITY OF CALIFORNIA
SAN DIEGO AND OFFERED
THROUGH COURSERA**

Data Structures

Completed a Data Structures course in Python from the University of California, San Diego, offered through Coursera, and received a certificate.

Jul, 2024-Aug, 2024

UDACITY

Programming Fundamentals

Completed the Programming Fundamentals course at Udacity, covering the basics of frontend development.

EXPERIENCE

JUN, 2024-SEP, 2024

Softnet Solutions™

Backend and frontend developer

Participated primarily in the backend development of a web-based platform called Pi, which generates school timetables and is designed to operate on an annual subscription model. Designed the database using MySQL and utilized Express.js for the backend while contributing to some frontend aspects using React. Collaborated with cross-functional teams to define project requirements and deliver high-quality solutions.

JUN, 2023-SEP, 2023

**Serdo Travel Software
Technology PLC**

Flutter Frontend and Backend Developer

Developed intuitive user interfaces using Flutter for travel software applications while also working on the backend using Express.js and managing the database for a project, utilizing MySQL for data management. Collaborated with backend developers to integrate APIs and optimize performance, participated in agile ceremonies for sprint planning and retrospectives, and documented development processes while creating user guides for end-users.

since 2024

Frontend Mentor

Frontend Development

Engaged in various coding challenges on Frontend Mentor to strengthen skills in responsive design and front-end development, particularly utilizing TypeScript. Completed real-world projects that required creating visually appealing and user-friendly interfaces based on provided designs. Applied best practices in coding and design, significantly enhancing understanding of modern web development principles. • <https://www.frontendmentor.io/profile/BiniyamTafesselemu>

since 2023

Data Structure

Problem Solving

Developed strong problem-solving skills by solving numerous questions on LeetCode and Codeforces, utilizing Python and JavaScript for implementation. This experience has enhanced analytical thinking and coding proficiency in tackling various algorithmic challenges.

Leetcode

https://leetcode.com/u/Biniyam_Tafesse/

Codeforces
